Benefits	Capacity for Growth	Lower TCO	100% Uptime
Oracle Exalogic delivered the benefits of reduced application integration complexity, shortened implementation time, and increased flexibility to handle high workload demand		At Least 50% lower TCO 10X Less Disk Storage 2x increase in throughput	Reduced management complexity and costs 

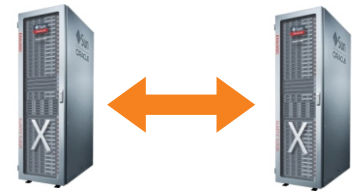

Production

Exalogic X3-2
Qtr-Rack

Exadata X2-2
Half-Rack

Lower Environments

Exalogic X3-2
Qtr-Rack

Exadata X2-2
Qtr-Rack

Objectives	Solution
<ul style="list-style-type: none"> Reliability, HA, Performance and Scalability. Coherence - Absorb more readily the load problems rather than hit Enable dynamic data capacity including fault tolerance and load balancing 	<ul style="list-style-type: none"> Migrate Custom Applications and Fusion Middleware to Exalogic Move Database to Exadata X3-2 and connect to Exalogic
